Projects involved in AIM capitalization

Pole 4 Low Carbon Community

Involving various decision makers ... throw “tailored made” arguments .

LAR : municipality level, provincial level, regional level

Territorial specificities : mountain, urban, lowland, maritime

Multilevel governance: river and bassin organisations, Alpine governance (AC, EUSALP)

Legislative powers: Regional, National, European assemblies and parliaments

AIM offers a tools box for decision makers that need to be supported in decision making

LAR to manage river ecosystems, natural risks and RES in a sustainable way ... **A « capacity building » challenge and a competitiveness challenge !**

Multilevel governance to find a consensus between various actors ... **A democratic challenge !**

Legislative powers to vote for a balance and efficient law ... **A regulation challenge !**
